EXPERIENCE

Product Designer II, Dick's Sporting Goods; Remote — 2020-Present

Led end-to-end mobile design for flagship eCommerce apps, contributing to over \$200M in revenue and engaging 3.3M+ MAU of 54% growth YoY.

Specialized in translating web experiences into mobile, creating user experiences optimized with native mobile best practices and patterns.

Developed a Figma-based design system and maintained UI consistency across multiple brands and platforms, reducing design and development time for other designers.

Conducted user research and usability testing to guide design decisions and improve user flows, resulting in a smoother and more intuitive shopping experiences.

Product Designer I, Dick's Sporting Goods; Pittsburgh, PA — 2018-2020

Designed and launched an internal web platform for merchandising, streamlining pricing event planning and increasing operational efficiency.

Led workshops and ideation sessions with stakeholders to advocate for user-centric design and drive alignment on product vision.

Collaborated cross-functionality with product, engineering, and QA teams, driving project delivery from ideation through production.

SKILLS & SOFTWARE

Gathering user insights, competitive analysis, conducting usability tests, designing user surveys to inform design improvements and opportunities.

Experience in rapid prototyping and fine-tuning interactions to improve user flow and engagement.

Expertise in creating and maintaining Figma-based design systems using variables and tokens that enhance efficiency and UI consistency.

Proven ability to collaborate with product and engineering in agile teams.

Figma, Sketch, Miro, Adobe Creative, Atlassian Suite, Usertesting.com, DScout.com, Firebase, HTML/CSS, Javascript, Python, Android/iOS

EDUCATION

University of Michigan – Ann Arbor – 2010-2018

B.S. in Information (UX)
